A concern was raised from the Kmart management with regard to the congestion of its carpark in the morning despite the store being quiet.

Manager Developments advised that any space deemed to be used for car parking, can only be converted for other uses (i.e. storage of tyres) with consultation from Planning. This may require the owner/tenant to apply a change of use through Planning. Based on the information provided on the application, it is understood that at this stage, Kmart and MyCar businesses are only wanting to define their respective car parking spaces. The access will remain as it is.
