Online Food Safety Training

The Department of Health takes food safety very seriously. To help Territory food businesses meet their food safety obligations, we provide free access to the I'M ALERT Food Safety online training tool.

This training helps food handlers to develop the required skills and knowledge to handle food in a safe and hygienic manner.

The program is easy to follow. It includes an entertaining presentation and interactive quizzes. Upon completion of the program, you will receive a training acknowledgement form that you can keep as a part of your staff records.

Visit www.nt.imalert.com.au to conduct the training now.
