

Fun aplenty for our four-legged friends

Monday, 30 March 2021

Alice Springs Town Council is proud to open the Rotaract Park dog park, the first of its kind in Alice Springs.

The new dog park comes as a result of strong community consultation and feedback, becoming the first space in the municipality to allow dogs off the leash at all hours of the day.

Mayor Damien Ryan was pleased to open the park ready for the community to use.

"This is a great example of Council listening to members of our community and acting accordingly," Mayor Ryan said.

"The Rotaract Dog Park is an exciting new facility for our town, giving dog owners flexibility to care for their four-legged friends."

The new dog park consists of an area for large dogs and an area for smaller dogs with both available to pet owners through the entire day.

The Rotaract Dog Park project was funded through Council reserves with a total cost of allocated to the project \$144,150.

The project was passed as a resolution through Council in November of 2019 with a range of consultation measures carried out in 2020.
