Manager of Community Engagement from Territory Families, Kez Hall, noted that the Minister's Advisory Council will have another review of the document, the Minister will have a final review, then the design and publishing stage of the document will take place. It is likely there will be some public announcement of this, and where the Policy can be accessed. The document will be released sometime between April and June, with an online version on the NTG website and a link sent out to the SCC members.

5. DEPUTATIONS:

5.1 Rae Finlay, Manager, Economic Development, Central Australia, Department of Tourism and Trade

Rae provided a brief update on the myAlice voucher scheme and the seniors lifestyle village.

myAlice Digital Discount Voucher Program

The myAlice is a scheme designed to stimulate the local economy that directly sustains both the community and local businesses by encouraging spending at businesses by providing discounts, subsidised by Council.

Alice Springs Town Council and the Northern Territory Government provided a combined contribution of \$400,000 to support the Alice Springs economy, via the myAlice Discount Voucher Program. The initiative commenced Friday, 11 December 2020 and the myAlice discount vouchers were released as follows:

- Round 1, \$150K released Friday 11 December 2020
- Round 2, \$100K released Monday 11 January 2021
- Round 3, \$150K released Monday 15 February 2021

There are 9,000 registered users and 119 merchants signed up. Local businesses reported the best trading period over the Christmas period. There were some issues with seniors having difficulty with signing up and downloading the application.

An information session tailored for seniors was held at the 50 Plus centre on Thursday 11 February. Mayor Ryan and the Small Business Champions presented a 'how-to' session on the discount voucher program. All 12 people that attended the session were aided in signing up and creating an account. The Small Business Champions are available to meet with any individual group to provide the same assistance.

Seniors Lifestyle Accommodation Update

- Like the rest of Australia, the Northern Territory (NT) is experiencing an increase in the proportion of seniors living or working in our community. As this occurs, Territorians are seeking a greater range of housing options to live independently, in a safe environment, and with access to care and community support.
- The NT Government engaged KPMG to undertake a market analysis (2016) into the development of seniors' lifestyle accommodation in Alice Springs, the Darwin urban area and the Darwin rural area. KPMG found that there is demand for seniors' accommodation in the Darwin rural, Darwin urban and Alice Springs areas.
- The NT Government undertook competitive market processes with a view to engaging proponents to develop and operate seniors' lifestyle accommodation in the three areas. This process was undertaken by the Major Projects Team, Darwin – now part of the Department of Chief Minister and Cabinet. The NT Government's objectives were to develop new seniors' lifestyle accommodation that delivered value for senior Territorians while being commercially sustainable. The market process was designed to provide maximum flexibility for proponents to develop commercially sustainable models, including determining the type and number of accommodations, price points, delivery model and development site.
- In April 2020 the NT Government called for Expressions of Interest for the Alice Springs Seniors Lifestyle Accommodation Project. The EOI was the first of a two-stage competitive process to test market appetite and engage a proponent to develop and operate new seniors' accommodation. Following evaluation of EOIs, shortlisted

proponents were invited to participate in the second-stage Request for Detailed Proposals process, to submit binding proposals to undertake the project.

- The market processes have concluded. Following detailed consideration, the proposals did not represent value for the Territory and the NT Government has declined all proposals.
- The proposals sought significant financial contributions to the development by the NT Government which has not been approved. The NTG Seniors-lifestyle-accommodation website has been updated yesterday with the outcome of the market process.
- While government through Major Projects will not be actively pursuing these specific development opportunities, it remains open to engaging with the private sector to facilitate sustainable development of new seniors' lifestyle accommodation options.

Fran Kilgariff registered her strong dissatisfaction about this outcome. Discussion ensued about the Committee's frustration and extreme disappointment in the outcome after considerable work undertaken by all parties concerned and all the process done over many years.

The Committee agreed to write a letter to the Chief Minister expressing its disappointment about the lack of support for a seniors' lifestyle village in Alice Springs.

ACTION:

Geoff Sloan and Fran Kilgariff to draft a letter to the Department of Chief Minister. Council officers to check the process with Manager Governance before sending a letter to the Chief Minister form members of the Seniors Coordinating Committee.
